PROFESSIONAL SUMMARY

Data Analyst with 4 years of experience in enterprise BI, reporting, and ETL across sales, operations, and pharmaceutical domains. Skilled in Power BI, SQL, DAX, and Python (Pandas, NumPy, Matplotlib, Seaborn), with hands-on Azure data services and dimensional data modeling. Built 15+ dashboards for 100+ users, automated pipelines over 1M+ records, improved data-processing speed by 15%, and applies AI-augmented analytics (Power BI Copilot) to accelerate insight delivery.

TECHNICAL SKILLS

BI & Visualization: Power BI (Desktop & Service), DAX, Power Query, Power Pivot, Report Automation, Data Storytelling

Python for Analysis: Pandas (Advanced), NumPy, Matplotlib, Seaborn, scikit-learn (Basics)

Databases & SQL: SQL Server, MySQL, T-SQL (Stored Procedures, Views, Query Optimization)

Data Modeling: Star & Snowflake Schema, Fact / Dimension Design, Relationships, Aggregations, Performance Tuning

ETL & Cloud: Azure Data Factory, Azure Synapse, Azure SQL Database, Blob Storage, Microsoft Fabric (Basics)

AI & Generative AI: Power BI Copilot, Prompt Engineering, AI-Assisted Analysis (ChatGPT / Claude / Copilot)

Analytics: Statistical Analysis, A/B Testing, Trend & Forecast Analysis, KPI & Time-Intelligence Design

Tools & Practices: Advanced Excel, Git, ServiceNow, Agile / Scrum, Stakeholder Communication

PROFESSIONAL EXPERIENCE

Cognizant Technology Solutions — Bengaluru, India

Data Analyst

September 2022 – Present

- Built and maintained 15+ interactive Power BI dashboards serving 100+ business users across sales, operations, and workforce-productivity functions, reducing manual reporting effort by ~30%.
- Automated ETL workflows in Power Query and Azure Data Factory to ingest and transform 1M+ records from SQL Server, Excel, and CSV sources, cutting data-preparation time by ~40% and improving refresh reliability.
- Developed complex T-SQL queries, stored procedures, and views that improved data-processing speed by 15% across 10+ analytics use cases.
- Designed star-schema data models with optimized fact/dimension tables, relationships, and aggregations, improving report load performance by ~25% on large datasets.
- Implemented 50+ DAX measures for KPIs, aggregations, and time-intelligence, standardizing reporting metrics across business units.
- Leveraged Python (Pandas, NumPy, Matplotlib, Seaborn) for exploratory analysis and automated data-quality checks and adopted Power BI Copilot to accelerate DAX authoring and documentation, cutting dashboard development time by ~20%.
- Partnered with cross-functional stakeholders to gather requirements, define metrics, and deliver actionable insights on time.

KEY PROJECTS

Commercial Pharma Sales Analytics

- Enhanced dashboard features and drill-through analysis, contributing to a 10% improvement in decision-making efficiency for a major pharmaceutical client.
- Integrated secondary sales data and built custom visualizations for regional and product-level performance tracking.

Employee Productivity Dashboard

- Engineered a centralized Power BI dashboard integrating data from 5+ project-management tools, delivering real-time insight into resource allocation and timelines for 100+ employees.
- Used Power Pivot and DAX to track billable hours, project allocation, and efficiency metrics.

Sales & Profit / Loss Analysis

- Designed weekly sales reports segmented by region, category, and product to support supply-chain decisions.
- Applied Power BI and SQL to extract, transform, and visualize performance trends for leadership review.

CERTIFICATIONS

- Microsoft Certified: Power BI Data Analyst Associate (PL-300)
- ServiceNow Certified System Administrator (CSA)
- Claude Certified Architect – Foundations

EDUCATION

Bachelor of Technology (B.Tech) — KIIT University, Odisha, India

2018 – 2022
